Subject: Ongoing water runoff at Perry County Associates permit #53-03, Arrowhead Landfill
Attachments: landfill.1.20.JPG; landfill.1.20_A.JPG; landfill.1.20_B.JPG; landfill.1.20_C.JPG; landfill.1.20_D.JPG; landfill_jan.13.a.JPG

Dearest US EPA,

Please know that over the last few weeks water runoff has been leaving the landfill in Perry County. Residents are concerned and reporting continuous flows. The water is leaving the landfill's property at a similar location as previous problems and the flow continues into private property (the same sites where the soil was sampled, etc).

The water was noticed to be leaving the landfill on 1.13, 1.18, and 1.20. I think this is an unpermitted discharge. This problem is directly related to the landfill's inability to handle, store, and manage its water. I feel that the landfill remains unable to properly handle its on-site water in the form of stormwater, leachate, etc. I feel that the landfill will never be able to stop this unpermitted flow. Where's ADEM?

I have filed 2 separate complaints to ADEM about the water (1.17 complaint to ADEM, my Complaint Number is: 7I-005QX2I04; 1.23 complaint to ADEM, my Complaint Number is: 8U-002LI4E48). I feel ADEM should have issued a violation to permit holder a long time ago for water runoffs.

I think ADEM knows that the flow leaving the site is unpermitted. I think ADEM knows that there have been over 150 accounts of this runoff since 2015. EPA, please do not take ADEM's word as the absolute truth.

Uniontown deserves justice at the landfill (ADEM to revoke permit #53-03). Uniontown deserves justice with its sewage system (ADEM to confirm the construction of an actual mechanical treatment plant). Uniontown deserves justice with the overflows from the cheese plant (ADEM to stop blocking citizen suits, ect). Overall, ADEM is not providing a healthy and safe Uniontown. I am not seeing ADEM attempt to protect Uniontown's environment or people.

I am happy to talk more about this at anytime.
